

CALIS Business DSL

Tired of long waits to download files off the Internet?

Now it's easy to get your entire office up to speed! Get rid of multiple dial-up accounts or expensive T1 services by using Business DSL service from CAL Internet Services, Inc. This solution supports multiple users, IP addresses, optional virtual private networks (VPNs) and equipment configurations that include routing.

Maximize your speed with CALIS Business DSL!

The CALIS Business DSL (digital subscriber line) service is a proven technology that offers secure, always-on, high-speed Internet access over existing copper phone lines. DSL can provide you with T1-like speeds that are up to 50 times faster than a 28.8 Kbps modem. This means you get immediate responses, and you don't have to worry about getting "bounced" off the Internet!

Because this solution is a dedicated connection, you don't have to worry about dial-up intruders or shared network hackers. Plus, it comes with a built-in firewall so you can always count on having the most secure protection. The best thing is that the CALIS Business DSL solution is easy to maintain, so you don't need to have an IT person on staff.

Speeds available

1.5M/384K	144/144K	192/192K	384/384K	768/768K	1.1/1.1M	1.5/1.5M
-----------	----------	----------	----------	----------	----------	----------

Burstable T1 also available

384/384K	768/768K	1.1/1.1M	1.5/1.5M

Reliable connectivity.

When you go with CAL Internet Services, Inc. for your DSL solution, you can count on us to provide you with the most cost-effective solution for your business. You will never see us suggest a solution that you won't need or can't reap benefits from. You can also count on us to deliver your solution on time.

We take pride in giving the best possible support to our customers from start to finish. You are updated on the status of your DSL service at all times. We offer an optional network consulting service that ensures you have the best network configuration possible for your business. And we provide customer support that is responsive, knowledgeable and patient.

"We just installed our Business DSL from CALIS. It is the greatest Internet service we have ever had! CALIS took control and went over and above their required work to insure a smooth install and operation. Again, I wish to thank CALIS for their expedient service and all their help to insure that our business continued to operate without any problems."
