At CAL Internet Services Inc., our mission is to provide the highest quality of complete Internet services at reasonable prices. We want to make a difference to small- and medium-size businesses by introducing and servicing their Internet needs with superior technology.

CALIS is dedicated to providing quality Internet solutions and is recognized by over two thousand customers nationwide. Our company is ranked among the top 25 local Internet service providers by the Sacramento Business Journal. As a result of quality service, customer referrals account for 45% of new business and customer satisfaction is at 99%.

CALIS offers complete Internet solutions with a wide range of services. These services include dial-up Internet access, Business DSL, advanced and complex Web site hosting, Web site design, online store, customized Web-based applications and network consulting. We have an excellent, highly knowledgeable technical support team, and you get to talk to a live person when you call for help.

Dial-up Internet: CALIS provides unlimited access with e-mail, 100% digital modems and no busy signals.

Business DSL: CALIS offers a wide range of affordable high speed Internet connections for your business. We offer high speed Internet services from 144K to 1.5M, and the service is available for any

distance from the central office in certain locations.

Web site hosting: CALIS' Unix/Windows 2000 hosting includes FTP, front-page extension support, site statistics, automatic domain renewal, user friendly control panel, CGI/PHP/PERL/JSP/ASP support, database support, 99.9% uptime, daily backups and tech support.

Web site design: The CALIS Web designers take time to consult with our clients to build their Web site according to their needs. Our experienced and knowledgeable staff design and implement first-class Web sites that are content rich and easy to navigate.

Online store: CALIS ez-Shop is an easy to manage, affordable, turnkey shopping cart with order tracking and online credit card processing.

Web-based applications: CALIS provides customized and cost effective e-business solutions to suit our customer needs. We offer Web-enabled applications and e-commerce solution. CALIS Student Management System (**CALIS e-SMS**) is an Internet-based software that enables school administrators and teachers to become more efficient and ensure a better future for children.

Network consulting: CALIS provides custom Internet and networking solutions with our knowledgeable and experienced staff.
