- Independently owned & operated
- Local dial-up numbers for California

Innovative

- Seamlessly integrated services
- Easy-to-maintain solutions
- Rapid implementation
- Efficient design

Secure

- Secure access
- Client confidentiality

Shiva Frentzen - president

Frentzen has over sixteen years directing the development and implementation of software solutions. Her software career started at Unify Corporation in Sacramento, CA, where she worked as a software engineer and database developer. She then moved to DST Innovis where she managed a team of designers to re-architect the company's existing monolithically designed software to an *n*-tiered, Web-based appli-

cation. In 1998, she started her partnership at CAL Internet Services, Inc. In 2000, she took over day-to-day operations and is the company's president and chief financial officer.

Frentzen earned a computer science and accounting degree and completed her master's degree in computer science from California State University, Sacramento in 1990.
